

Annette Schmid, Head of Oncology Strategy, **Perceptive Informatics Inc**

Annette M. Schmid, PhD, has been working for close to 20 years in imaging, spanning a wide range of modalities and techniques. She is a Medical Director and Head of Oncology Strategy for PAREXEL Informatics. She provides medical and imaging expertise to internal teams and consults with clients that conduct clinical trials that rely on medical imaging studies. Dr Schmid has led numerous trainings, webinars and discussions on a variety of assessment criteria, imaging trial settings and regulatory aspects. While at PAREXEL, Dr. Schmid has spent the majority of her time working on trials in the field of oncology and has supported studies in the musculoskeletal, cardiovascular and neurology field. She has been leading the oncology medical imaging therapeutic area in the US for PAREXEL for the last 3.5 years. Since January 2013, Dr. Schmid has been co-chairing the **Pharma Imaging Network for Therapeutics and Diagnostics (PINTAD)** meetings together with Dr. Susanta Sarkar/ Sanofi-Aventis and chairing the discussions on the ODAC Audit methodologies
